

2 December 2021

Mr Barry Evans
Fernleigh Farm Pty Ltd
663 Fernleigh Rd
Fernleigh NSW 2479

Dear Mr Evans,

Thank you for your letter regarding your application for a Habitat Action Grant to undertake riparian land and waterway restoration along Skinners Creek.

The NSW Council of Freshwater Anglers (NSWCFA) is the peak body for freshwater recreational fishing organisations in NSW, representing more than 30 fishing associations and clubs. Our main aim is to improve recreational fishing access, quality and sustainability in NSW.

We have read your draft application and note:

- The significant investment that has been made into previous work on the property to restore native bush habitat and improve the water quality that leaves your land.
- This project will effectively extend that successful past work.
- The implementation of fencing and off-stream watering to protect the creek.
- The inclusion of re-snagging and fish passage works in the project plan.
- The involvement of professional contractors and consultants who have bush regeneration experience and skills.
- Engagement with local recreational fishing clubs.
- Engagement with landcare groups and OzFish.
- The large in-kind contribution.
- The possibility of field days to share information and experiences.
- Your detailed budget.

We fully support your application for funding and look forward to hearing updates in the future.

Yours faithfully,

Peter Gibson
President
NSW Council of Freshwater Anglers
Ph: 0425 211 313
